EXPERIENCE

Front-End Software Developer

April 2022 – Present

Wonder Sistemas

Erechim, RS

- Built an end-to-end expense management system, assisting dozens of partner companies in controlling hundreds of monthly expenses. In this project, I also integrated the “AWS Textract” AI service for automatic form filling from document photos, eliminating over 80% of manual errors.
- Designed, architected, and implemented an order control and release system with stages for order approval, reducing the time between request and approval/rejection by up to 50% through interface optimization and usability improvements, and decreasing errors by 20% thanks to the order approval stages system.”
- Built a digital signature system for delivery personnel, eliminating the use of paper, preventing human errors, and increasing the security and traceability of deliveries.
- Developed a system for registering and tracking industrial production orders, reducing manual errors by up to 20%. The QR code/barcode scanning functionality via the mobile phone camera dramatically accelerated the process and increased operational efficiency.
- Co-authored a Design System project to create and standardize reusable components and custom hooks, drastically reducing the implementation time of new features and optimizing system interfaces.
- Performed code maintenance and fixes, improving performance, readability, and maintainability.

Chatbot Take Blip Scholarship

Dec. 2021 – Mar. 2022

Compass UOL

Erechim, RS

- Created, both autonomously and in collaboration with the team, intelligent and interactive chatbots, gaining practical experience in JavaScript, Node.js, Blip, IBM Watson Assistant, and other related technologies.
- Participated in training on Backend and chatbot development, enhancing my knowledge in software architectures, API integration, and conversational flows.

Support Analyst

Jun. 2019 – Mar. 2021

Simpler Soluções em Tecnologia LTDA - MyClub

Erechim, RS

- Provided technical support to the company’s clients, solving issues related to software.
- Participated with a technical perspective in creating administrative strategies such as Business Plan and Business Strategic Planning.
- Developed detailed flowcharts of administrative processes, increasing efficiency and reducing costs and errors.

EDUCATION

Universidade Regional Integrada do Alto Uruguai e das Missões - URI

Erechim, RS

Bachelor's in Computer Science

Jan. 2021 – Dec 2024

HarvardX - EdX, Online

Cambridge, MA

CS50x: Introduction to Computer Science

Jan. 2021 – Dec 2021

Universidade Federal de Santa Maria

Santa Maria, RS

Bachelor's in Business Administration

Jan. 2016 – Dec 2019

PERSONAL PROJECTS/PORTFOLIO

- All of my personal projects (websites, thesis, technical learning projects) and more information about me are available on my portfolio at matheusfinatto-portfolio.vercel.app

TECHNICAL SKILLS / WELL KNOWN TECHNOLOGIES

Languages: JavaScript, TypeScript, Python, HTML/CSS

Frameworks: React, Node.js, Flask, Ant Design, GraphQL, Apollo Client

Developer Tools: Git, Github, Docker, Google Cloud Platform, AWS

Languages: Fluent English, Native Portuguese, Basic Italian, Basic Spanish
