EXPERIENCE

Front-End Software Developer

October 2022 – Present

Wonder Sistemas

Erechim, RS

- Developed an expense management system using React, GraphQL, Apollo Client, Ant Design, and AWS, assisting dozens of partner companies in managing hundreds of monthly expenses. Automation significantly reduced the time spent on the process and optimized clients' budgets, streamlining expense control and decision-making. Additionally, I implemented AI integration for automatic form filling from document photos, eliminating over 80% of manual errors.
- Implemented an order control and approval system, reducing the time between request and approval/rejection by 70% through interface optimization and usability improvements. Also created a production order tracking system, reducing manual errors by up to 20% in some companies. QR code/barcode scanning via mobile camera integration accelerated the process and boosted operational efficiency. Moreover, I developed a digital signature system for delivery drivers, eliminating paper use, preventing human errors, and enhancing delivery security and traceability.
- Developed a library of reusable components and custom hooks, reducing implementation time for new features by up to 50% and standardizing the interface across systems. I also performed continuous maintenance, modernizing legacy code and enhancing performance and readability.

Chatbot with Take Blip Intern

Dec. 2021 – Mar. 2022

Compass UOL

Erechim, RS

- Completed a three-month internship focused on developing intelligent chatbots, gaining hands-on experience with JavaScript, Node.js, Blip, IBM Watson Assistant, and other related technologies.
- Participated in Backend and chatbot development training at Alura, enhancing my knowledge in software architectures, API integration, and conversational flows.
- Developed interactive chatbots integrated with REST APIs, automating processes and improving the user experience.

Support Analyst

Jun. 2019 – Mar. 2021

Simpler Soluções em Tecnologia LTDA - MyClub

Erechim, RS

- Provided technical support to the company's clients, resolving issues related to the company's software.
- Contributed to the development of administrative strategies, such as Business Plan and Corporate Strategic Planning.
- Created detailed flowcharts for administrative processes, increasing efficiency and reducing costs and errors.

EDUCATION

Universidade Regional Integrada do Alto Uruguai e das Missões - URI

Erechim, RS

Bachelor in Computer Science

Jan. 2021 – Dec 2024

HarvardX - EdX, Online

Cambridge, MA

CS50x: Introduction to Computer Science

Jan. 2022 – Dec 2022

Universidade Federal de Santa Maria

Santa Maria, RS

Bachelor in Business Administration

Jan. 2016 – Dec 2019

PERSONAL PROJECTS/PORTFOLIO

- All of my personal projects (websites, thesis, technical learning projects) and more information about me can be viewed on my portfolio at matheusfinatto-portfolio.vercel.app

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, HTML/CSS

Frameworks: React, Node.js, Flask, Ant Design, GraphQL, Apollo Client

Developer Tools: Git, Github, Docker, Google Cloud Platform, AWS

Languages: Fluent English, Native Portuguese, Basic Italian, Basic Spanish
